School Nursing

School Nursing is a specialised practice of professional nursing that advances the well being, and primary healthcare of students and staff within a school community. School nurses facilitate positive student responses to normal development; promote health and safety; intervene with actual or potential health problems and provide case management services.

School Nurses' Special Interest Group

We are a group of Nurses who work within the school environment encompassing Independent Schools, Catholic Schools and the Department of Education and Early Childhood Development (DEECD).

Aims & Objectives

- ❖ To encourage communication and active participation within all areas of the school nursing community.
- ❖ To recognize and encourage on-going education and professional development by our members.
- ❖ To promote proactive primary healthcare and education within our given settings.
- ❖ To support other professionals in our specific field.

Meetings

Meetings are held on the 3rd Tuesday of each school term at ANF headquarters, 7th Floor, 540 Elizabeth Street, Melbourne. Meetings start at 1830 hrs and include an educational presentation by guest speakers, followed by a light supper, networking and a business meeting.

Membership

Full membership is open to all nurses, associate membership is open to all First Aiders who work within the school environment.
